**Main Base:** Emily 252-7467 (h), Michelle 090-9076-7427 (c)

**In the Cho:** Gwyn 080-1725-8961 (c)

## After-Hours Vet Care

For vet care outside the normal hours of the CFAS vet clinic, contact the clinics below or call the CFAS vet clinic at 252-3585 for a recording with a full listing of local vets. The listings below are provided for your information; BAR does not endorse these veterinarians or their services.

**Hamaguchi Veterinary Hospital tel: 0956-25-9914** Directions: Exit Main Base at the Tategami Gate end, go left at the light onto Highway 11, and make a quick right onto the road that passes between the Japanese school and the new CFAS housing area. Take this road up the hill until it comes to a stoplight at the 'T' in the road. Take a left at the light and continue on through four stoplights. Immediately after the fourth light you will take a right into the parking lot for Dr. Hamaguchi's clinic. Look for the big bright green and white sign on the right hand side of the road. Parking is in the lot next to the building. Distance from CFAS: 1km.

**Mine Veterinary Hospital tel: 0956-38-9555** Directions: Exit the Hario housing area and turn right onto 213, which goes past Huis Ten Bosch. Turn right onto 202 toward Saga/Sasebo. At the intersection where you would normally turn left to go toward Central Sasebo, continue straight on 202, toward Takeo/Imari. Continue on for a few kilometers, and you will come to an intersection where the road splits, with the left lane indicating 35/202 toward Central Sasebo. Stay to the right at this intersection and continue on straight, over a bridge with a white railing. At the end of the bridge is a stoplight, go right at the stoplight (there is a light blue two-story building at the corner). Continue on this road for ~1 km until you come to a stoplight and turn left at the light. Continue on until you see a Lawson convenience store on the left—the next building on the right will be Dr. Mine's clinic. Parking is in the garage on the first level, and the clinic is on second level. Distance from Hario: 9.3 km.
